Consolidated Documents:

May 2006 **005010X222**

June 2010 **005010X222A1**

February 2011

ASC X12 Consolidated Guides aid in transaction implementation by combining official material into one user friendly document. Although the consolidated guides have not been explicitly mandated under HIPAA, they incorporate the individual guides that have been named into single documents. In the event that there is a conflict between the Consolidated Guides and the ASC X12 Type 3 Technical Reports or any subsequent errata, the underlying ASC X12 publications are the authoritative source.
